# "LES SENTIERS MAGIQUES" ADVENTURE

Klugle Escape Game's "Les sentiers magiques" puts a new spin on escape games by offering open-air adventures.

In teams of 2 to 6 players, participants put their logic and deductive skills to the test on unique, puzzle-filled trails. With their adventure kit and rucksacks on their backs, they embark on a race against time to save the world:

- Route de la Terre (1h30)
- Route du Feu (2h)
- Route de la Glace (2h)
- Route de l'Eau (2h30)

Using the Visionpad (tablet), a sprite guides the heroes through a series of puzzles to win crystals. They must collect enough to close the magic portal and thus save humanity from chaos.

A careful analysis of their surroundings and the choice of the right problem-solving tools are essential to their success, but the most decisive factor will be their team spirit.

Only the most perceptive will be able to solve all the puzzles!
