TRIP IDEA, NOIRAIGUE

HOTEL DE L'AIGLE - CROSS-COUNTRY SKIING

With 300 kilometres of cross-country skiing trails, you will find in the Val-de-Travers, the cradle of absinthe and the Creux du Van, your happiness, be it classic or skate skiing. Magnificent landscapes await you: on the ridges, cross the high plateaus in a still and immaculate setting of white and admire the 360° view of the Alps and the Jura massif. In the forests, the dense fir trees will give you the impression of being in the Far North. It is this exceptional diversity, in a small geographical area accessible by public transport, that makes the Val-de-Travers a real paradise for cross-country skiers.
