

VACATION APARTMENTS, VILLERET

LA TINY DE L'AIGLE

The Tiny - revisited and expanded - has been designed and imagined to allow everyone to live the Tiny experience, with the added comfort and space. The Tiny is built of wood by local artisans. It is warmed by a floor heating system and connected to the district heating system. It has a proper bathroom with shower cabin, a kitchenette and a comfortable mattress. The living net widens the space and adds an additional cachet. A fully equipped picnic area and two electric bikes are at your disposal. The Tiny has two faces: for sportsmen and walkers, it is the Tiny de l'Aigle. Warm setting, dream catcher... For lovers, it becomes the Tiny d'Amour (little love nest) and is decorated in a sumptuous and romantic way.
