THE SANDY BEACHES OF YVONAND

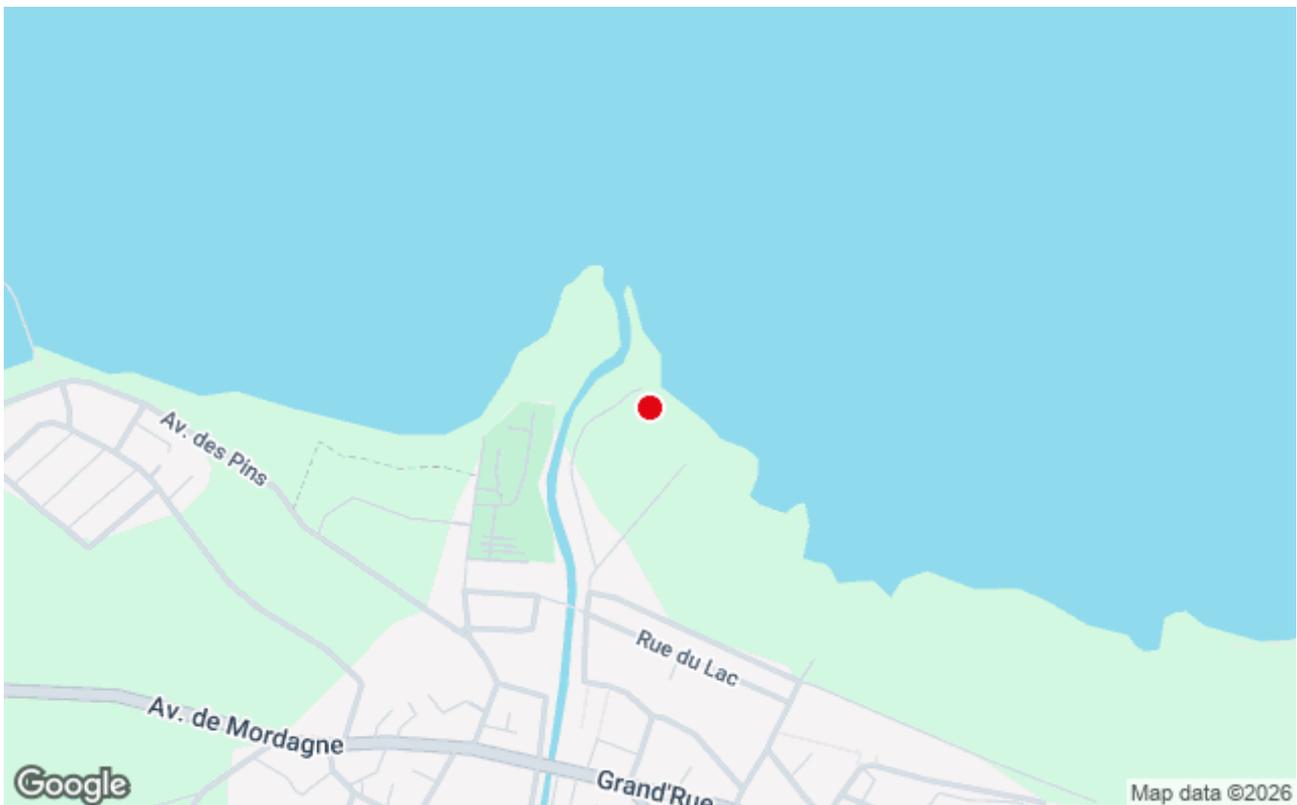

The beaches and coves of Yvonand with their fine sand and turquoise waters are a real corner of paradise for all those who wish to unwind. Surrounded by greenery, they offer perfect moments of relaxation and escape and the chance to recharge one's batteries. The beaches at Yvonand, unique in Switzerland, are truly enchanting. The gentle slopes down to the water and the lack of any strong current create a spot ideally suited to children.

In addition to the play areas, holidaymakers can also take full advantage of all the entertainments and activities offered on Lake Neuchâtel: pedal boats or water bikes, paddle boards or wind surf board, sailing or motorboats, kite surfing and so on.
