

COMBINED OFFER, COURTELARY

FROM THE CHOCOLATE TO THE MOUNTAIN

Departure from the visitors center Chez Camille Bloch in Courtelary. Come and experience a magical moment at the origin of the Ragusa and Torino brands. Located in the beautiful Chasseral region and easily accessible by road and rail, the Chocolaterie promises a unique and authentic experience that will awaken all your senses. Much more than a chocolate museum, CHEZ Camille Bloch takes you on a journey of flavors and discoveries in which you yourself are the actor.

After this visit, head for the Chalet du Mont-Crosin on the pass that bears the same name. Regional dishes just a stone's throw from the wind turbines. The opportunity to have a little salty interlude by letting yourself be tempted by their excellent ham with home-made röstis.

After this meal, we head for Saint-Imier for an interactive guided tour of this picturesque watchmaking town. Thanks to this new interactive guided tour, discover a new form of visit in the region! More fun and entertaining than a paper guide, the 10-station tour through the town of Saint-Imier will delight young and old. Available via the Pindex application, numerous possibilities allow digital technology to sublimate reality by providing more content at each point of interest. Facade recognition, quizzes, audios, photos, videos and many other features are to be discovered. The sumptuous Collegiate Church and busts decorate the Market Square. A walk along the "Pod", the name given by the inhabitants of Imerien to their main road, allows you to discover the various local merchants.

The day ends with a panoramic view. Symbolized by its telecommunication antenna, visible far and wide and planted like a lighthouse on the fourth highest peak in the Jura, the Chasseral offers a real spectacle in itself. The view of the three lakes (Biel / Neuchâtel / Murten) and the Swiss plateau is unique.
