LIBRARY-CAFÉ LE VENT SE LÈVE

A versatile and independent bookshop offering new and second-hand books, with a focus on Swiss authors and publishers. There is a children's section and a special area where children can have fun and do some learning, with a blackboard for painting and drawing. The offer is complemented by high-quality stationery, games and objects, mainly made by people with disabilities and from environmentally friendly Swiss production.

The café attaches great importance to the origin of the products, which are mainly locally and organically grown. In this way, regional producers are to be promoted and short transport routes encouraged. The dishes on offer are all homemade. Passion for good products and the desire to create pleasure are palpable in the menu with prices to suit every budget. The motto is: pleasure for the palate, healthy and local for everyone.
