

FUN & ADVENTURE, BRESSAUCOURT

SKYDIVING

"All of my family contributed to give me a tandem parachute jump as a birthday gift. The half-day adventure started at the airfield of Bressaucourt with 20 minutes of theoretical instructions. After ascending to an altitude of 4000 meters on the powerful Pilatus Turbo, I jumped out of the airplane securely fastened to my companion to experience a vertical trip of two kilometers. I was able to direct the parachute myself for about 10 minutes. Later on we landed comfortably back on solid ground thanks to my skilled instructor. An unforgettable experience!"
