

FUN & ADVENTURE, BASSECOURT

KARTING, BASSECOURT

"We went to the karting centre in Develier to celebrate my second cousin's 15th birthday. As soon as we arrived, the roar of the karts already on the track made us want to get out there. The young and old drivers were all eager to get kitted out. We finished fastening our helmets, put on our gloves and, after a few words of explanation, off we went! Ten minutes of climbing, overtaking and dizzying descents later, the parents were happy to take a short brake, just to rest their legs and catch their breath. But the children drove on, commentating on their achievements and already acting like the future stars of F1!"

Sophie
