BED & BREAKFAST, MONTAVON

ESPACE ENTRE CIEL & TERRE

An exceptional place in the heart of the Jura with a few rooms, a garden, a wellness area, a pavilion where workshops are regularly held, a seminar room and silence...

To ensure an unforgettable stay, you will find 11 comfortable rooms with bathrooms, featuring evocative names such as Amethyst, Lapis-Lazuli and Labradorite. Each room has been carefully designed in keeping with the energy of the stone after which it is named. The Coco-Mat bedding is natural and a pitcher of water energised by stones is available.

Our world dedicated to relaxation for our guests offers a heated indoor swimming pool, a hammam, a sauna, sensory showers, an ice fountain and a snow shower.

You can also let yourself be carried away by sounds, colours and scents by relaxing in our sensory journey area. This guest room is for you and your friends! Take time to live in touch with the energy of the stones, in step with the rhythms of this place and of nature.

Succumb to the magic!
