

NATURAL SITES, MONT VULLY

PANORAMA FROM THE MONT VULLY

A small winding road of a few kilometres from Sugiez or Môtier takes you to the summit of the famous Mont Vully, which culminates at 653 metres. This place is best known for its unique panoramic view of the Alps, the Jura and the surrounding Three Lakes.

At the top are a parking lot and a few benches, which will allow you to admire the landscape peacefully. The breathtaking peaks are easily recognizable thanks to a panoramic table. Picnic tables and 2 grills complete this magical place.

Several hiking routes also pass through the summit of Mont Vully. A walk on these bucolic paths is recommended to soak up the extraordinary view.
