SOUBOZ DISTILLERIE

We are a natural, artisanal and sustainable distillery. We are three brothers from the Grand Chasseral who love good taste. The forests, the pastures and our orchard are our ingredients.

Our distillery is located in the middle of an unspoiled nature in Souboz, a small village in the heart of the Grand Chasseral. For you, we transform our mountains and our environment into unique Swiss gins and spirits. The forests, the pastures and our orchard provide us with our ingredients: Gentian, juniper, damassin or sweet woodruff.

Renée the still

We distill our gin and spirits over a wood fire in our premises with our Renée still. The distillation in our premises allows us to control the quality of each batch of bottles and thus allows us to obtain an incomparable quality. We control our artisanal production chain from A to Z. The distillation on wood fire also preserves the tradition of our ancestors with a 100% sustainable energy.

The yellow gentian

Queen of our mountains, the yellow gentian (*Gentiana lutea*) is the main ingredient of our artisanal gin and our Souboziane. This large yellow flower is known for its digestive and appetizing properties. At the end of the summer, when the sap goes back down into the roots, we harvest it sparingly and by hand in our pastures of the Grand Chasseral. We repeat the same gestures as our ancestors and perpetuate an age-old tradition. Finally, we distill the roots: their bitterness is inimitable.
