FESTIVITY, FESTIVAL, MURTEN

CERAMIC PANORAMA

The Ceramic Panorama is an open-air exhibition that shows ceramics in all their diversity, from handicrafts to contemporary design.
The event takes place every two years and pays tribute to traditional handicrafts, but also to those reinterpreted by young designers. It offers selected designers a platform in public and promotes exchange among themselves.

On 4 and 5 September 2021, the fifth edition of the ceramic panorama will take place at the Pantschau in Murten. The works of around 100 exhibitors from Switzerland and Europe will be presented: Everyday objects, art objects, product design and grandiose sculptures - all unique and authentic, produced in a wide variety of techniques and forms. An event with international appeal!

Be a part of it!
