SWISS PARK, SAINT-URSANNE

# DOUBS REGIONAL NATURE PARK

**"It was Switzerland Tourism who gave us the idea. We saw a map of the regional nature parks of Switzerland in one of their summer brochures. We didn't know that our country had established this kind of park, which we have always appreciated on our holidays in France. We decided to spend a few days in the Doubs region. We discovered St-Ursanne with its medieval charm, the Saut-du-Doubs and also some lesser-known places such as Biaufond and La Bouège. We had some wonderful walks and also tried an E-bike for the first time."**

**Magalie et Jérôme**

## GOOD TO KNOW

- Sustainable activities and theme excursions (fauna and flora, heritage) can be booked on request.
