WATCHES, LE NOIRMONT

MUSEUM OF WATCHCASES

Housed in a completely renovated old watchmaking workshop, the museum presents two typical workshops of the region: a turnery dating back to around 1850 and a mechanized workshop from the 1920s. This place of memory displays hundreds of objects and documents to provide insights on how the manufacturing techniques (lamination, stamping, turning, terminage, soldering, polishing) have developed over time. A first in the history of watchmaking!

PRICES

Prices per person	CHF 5.-
Adults	Free
Children (up to 12 years old)
