

CAMP SITES, GAMPELEN

TOURING CLUB SCHWEIZ

Three lakes surrounded by lively cities and bathing beaches, nature preserves extending for many kilometres and the almost endless vegetable fields of the Great Marsh – the Three-Lakes region is an ideal place for sports enthusiasts and for all those who prefer a leisurely pace or wish to connect with nature in absolute peace and tranquillity. The TCS Camping is located at the eastern end of Lake Neuchâtel, just north of Lake Murten and west of Lake Biel/Bienne. This means that the jetties for extended boat tours, the city of Neuchâtel with its French flair and patrician mansions, the Papiliorama at Kerzers with its 60 butterfly species, St. Peter's Island or the picturesque historic towns of Murten and Aarberg – they're all only a stone's throw away. There are also lots of things to discover at and around the campground: It is located on the shores of Lake Neuchâtel. In other words, a perfect place for anyone who enjoys being in or around water.

There's plenty of activity on the campground ...

layground and wading pool for the little ones, kayak and bicycle rentals (incl. e-bikes) on site, small harbour nearby, table tennis, boccia, outdoor chess, archery, well-stocked shop and the Fanel54 restaurant with unobstructed views of the sunset and the lake.

... and in the area

With its many field paths crisscrossing the Great Marsh and its location on the lakeshore between the Zihl and Broye canals, the campground is an ideal starting point for hiking, cycling, inline skating, horseback riding and nature watching. Birds, wild boars, beavers, foxes, deer and hares – they all live here.
