GALERIE OF LES OMBELLES

At the end of a small road at Fornet-Dessus, you will find an old school which is now the art gallery of Les Ombelles. This is the workshop of the painter Silvère Rebetez and is located amid fir trees and pastures with horses. It enjoys attractive light, coloured by the seasons and the weather. As you go in, stop for a brief moment on the thick parquet bearing the marks of a rich past before moving along the paintings exhibited on the white walls.
